

Uplighting is no doubt the single most visually powerful lighting technique available. The size of our fixtures, combined with their clean and elegant appearance, allow our designs to be integrated into any wedding theme. All of our lighting packages are capable of being programmed to your specific wedding colors, giving us total creative control over how our lighting enhances and blends with your wedding theme and venue architecture. We also have limitless control over light intensity allowing us to create soft romantic settings that are nothing short of amazing to experience.
